Licensing Information

Kino Lorber EDU provides a variety of licensing to suit all needs. Our standard institutional licensing packages are designed to provide colleges, universities and qualified nonprofits with the best value for multiple uses, and our one-time community screening licenses allow any organization to exhibit high-quality films for a reasonable fee. Please note that all licensing carries restrictions on audience numbers and/or geographic range.

STANDARD INSTITUTIONAL LICENSING

CLASSROOM RIGHTS allow unlimited use in face-to-face classroom situations for the life of the media, restricted to a single campus or location. Please note that this license doesn't include public screenings or digital transmission of any kind.

PUBLIC PERFORMANCE RIGHTS (PPR) allow educational and nonprofit groups to exhibit our films to groups of 100 or fewer individuals where admission is not charged. The term of the public performance license is for the life of the DVD. However, if you intend to charge admission, expect an audience over 100, or publicly advertise the screening, then we ask that you contact us regarding an exhibition fee. Films purchased without Public Performance Rights are restricted for individual viewing or face-to-face teaching in the classroom only. Restricted to use on a single campus or usual place of presentation.

DIGITAL SITE LICENSES (DSL) allow colleges, universities and nonprofits to locally host and stream to their community on a closed, password-protected system for the life of the digital file. Restricted to use on a single campus and to those enrolled in online classes at that campus.
